

## Eagle Full Moon: ITZÁ SIH EAGLE CHANT

...in answer my guide, Nakia said: "The Giver of All Life is full of love - such love as there is between us."

There are groups of guides working at various levels in all countries, but it is always a work that persists by experiment and by effort, because it is not possible to determine beforehand the response that we will give as the instruments of Spirit's love.

Our guides cannot solve our problems for us. If they tell us what to do, that interferes with our free will. Once our guides start to tell us what we must do and what we must not do, that is the end of our free will. Then our progress would suffer.

Our guides try to help us see, for they are real, not out of books, but out of the Spiritual Realm. Our guides talk most directly to our inner child; for our inner child is most apt to listen. You know, our guides often come to play with our inner child and bring the sense of safety found within our individual Sacred Space.

We are in a time, when we arise, a Rainbow Race, that recognizes that all politics, religion, science and knowledge are part of one thing. Then pain, sorrow, fear, mourning and unhappiness are banished and our world becomes a place of smiles and happy laughter. The greatest teacher who could come into our world today is the one within that works to lift the sorrows of others and make the lives of others better.

February 5 Opening Prayer: The foundation of my life is based in relaxation (senega snakeroot).
